

STEVENS PHILIP

Senior Full-Stack Engineer · Angular Specialist (3 yrs) · Code Quality Leader

stevensp99@gmail.com · +91 9380546501 · linkedin.com/in/stevens-philip
Bengaluru, India · 5 years end-to-end product engineering

PROFESSIONAL SUMMARY

Full-stack engineer with **3 years of production Angular** building scalable enterprise platforms. Proven expertise in code quality, component architecture, and maintainability at scale. Led API contract discipline across teams, mentored junior engineers, and shipped systems serving millions of users. Strong REST API integration, Agile delivery, and collaborative engineering culture. Ready to deepen Angular mastery and drive platform scalability at Dover.

CORE ANGULAR EXPERTISE

Angular (Production)	3 years: RSA (registration platform, +91% growth), PUD (1000+ garages), Claims (real-time tracking UI). SDUI architecture, dynamic components, responsive design.
JavaScript / ES6+	Advanced: State management (Redux), async patterns, event handling, REST API integration. TypeScript for type safety across all projects.
HTML / CSS	Expert: Responsive layouts, design systems (Material UI, Tailwind CSS), accessibility basics, performance optimization (lazy loading, code splitting).
REST API Integration	Strong: API contract definition, error handling, pagination, real-time polling optimization. Cross-team collaboration with backend (Spring Boot, Node.js).
Code Quality	Leader: Cross-team code reviews, API contract discipline, mentored 3+ juniors on feature delivery. Established code review checklist adopted across RSA, PUD, Claims.

EXPERIENCE HIGHLIGHTS

Software Development Engineer 2 (SDE2)

Acko General Insurance

Jan 2025 - Present · Full-Stack Owner, Bengaluru

- RSA Platform (Roadside Assistance):** Owned complete Angular frontend. Features: dynamic question engine, slot booking, Google Maps location, garage selection, real-time tracking. Impact: **+91% registrations (18% → 34.5%), -50% onboarding time (12min → 6min), -43% support calls (350 → 200/week)**.
- PUD Platform (Pickup & Drop):** Built garage-selection SDUI with dynamic bias (ADSC vs non-ADSC), slot booking, real-time pricing. **1000+ garages live**. Architected reusable SDUI components (node-based navigation, data-enrichers) adopted company-wide.
- Claims Real-Time Tracking:** Built Claims Timeline UI (50+ events), SLA visualization, audit trail. Implemented performance optimization (React.memo, virtualization) - **60+ events render in <200ms**.
- Code Quality Leadership:** Led API contract discussions across RSA, PUD, Claims. Established cross-team code review checklist; mentored 3+ juniors on feature delivery, API patterns, and testing discipline.

Software Engineer 2 → Engineer 1

Dell Technologies

Aug 2021 - Jan 2025 · Full-Stack (Angular + Spring Boot), Bengaluru

- Unified Cost Management Dashboard:** Angular + DevExtreme frontend for enterprise procurement. RESTful integration with Spring Boot microservices. **\$65M ROI, 50% approval-efficiency gain**.
- DevOps Leadership:** Drove test coverage **60% → 97%+**. Led PCF vulnerability remediation (60-70%). Established CI/CD discipline, deployment confidence high.
- Production Reliability:** Mentored juniors on code quality, testing, and production deployment best practices. Participated in cross-team architectural reviews.

KEY TECHNICAL SKILLS

Frontend:	Angular (3 yrs), React, JavaScript/ES6+, TypeScript, HTML5, CSS3, Tailwind CSS, Material UI, Sass, Responsive Design
State Mgmt:	Redux, Context API, RxJS (observables)
Testing:	Unit testing (Jasmine), integration testing, code review discipline, test-driven development
Backend:	Spring Boot, REST API design, Node.js, Python, microservices architecture
DevOps:	Git, CI/CD, Docker, Kubernetes, PCF, AWS, GitLab, Jenkins
Other:	Agile/Scrum, cross-functional collaboration, mentoring, code review leadership, performance optimization

EDUCATION & ACHIEVEMENTS

- B.Tech Computer Science** - Sikkim Manipal Institute of Technology (2021), CGPA 9.69/10

- **Patent Authorized** - DELL: "TIDE Hack2Evolve - Gen AI for Code Reusability"
- **4th Place** - Ackathon 2024, Acko General Insurance (AI-powered medical tourism platform)
- **1st Place** - GSCM-TECH-A-THON, DELL: Parquet automation (8hrs → 2min)

Why Dover India? Your Angular-focused platform aligns perfectly with my 3 years of production expertise. I'm excited to bring code quality leadership, scalable component architecture, and full-stack ownership to Dover's core platform. Ready to contribute immediately and mentor the next generation of engineers.
