PROFESSIONAL SUMMARY

Full-stack SDE2 with 5 years of production experience designing and shipping public APIs and customer-facing front ends. Production TypeScript at scale through Acko's React + Angular Server-Driven UI platform (1,000+ partners, real-time configuration). Strong fundamentals in distributed services, cloud deployment, and on-call ownership - building toward Node.js + identity-platform depth. Patent-holder at Dell; AI/ML systems shipped to production. EXPERIENCE

Software Development Engineer 2 - AI-Enabled

Jan 2025 - Present

Acko General Insurance · Bengaluru

- Designed and shipped public + secure APIs and customer-facing front ends across RSA, PUD, Claims and CES - full-stack ownership from API contract to production rollout.
- Built Server-Driven UI platform (React + Angular + TypeScript) backed by Spring Boot microservices - 1,000+ partner garages, dynamic configuration, IRDAI-compliant PII masking.
- RSA platform outcomes: registrations 18% → 34.5% (+91%), registration time 12 min → 6 min, weekly support calls 350 → 200.
- Built Admissibility AI Agent - rule-engine + ML classification with feedback loop; production deployment on Acko's cloud platform.
- Mentored junior engineers on RSA / PUD; led API contract discussions and cross-team code reviews.

Software Engineer 2 (Promoted from SDE1)

Aug 2021 - Jan 2025

Dell Technologies · Bengaluru

- Unified Cost Management Dashboard - distributed Spring Boot services + Angular + Layer-7 authentication; PCF production deployment, \$65M FY ROI.
- Security & DevOps lead: drove test coverage 60% → 97%+ across DISCP & One Cost; led PCF vulnerability remediation (60-70%).
- Eye On Desktop (Electron JS / Node.js runtime) - proactive monitoring widget; 35% faster issue identification.
- Buddy Board - Angular + Python + Spring Boot automated data-validation pipeline for procurement workflows.

Software Engineer Intern - AI-Enabled

Feb 2021 - May 2021

Dell Technologies · Bengaluru

- PRISMO & DISCP AI Chatbot (Rasa NLP, wake-word detection) - Docker/Kubernetes containerised; 20% interaction-efficiency gain.
- Speech Recognition Engine - custom domain model; 85% production transcription accuracy.
