PROFESSIONAL SUMMARY

Full-stack engineer with ~5 years building AI-enabled products at scale across Insurtech (Acko) and enterprise tech (Dell). End-to-end product ownership from API contract design to cloud-native production rollout. Strong in Java/Spring Boot backend services and React/TypeScript frontends. Delivered measurable outcomes: app registrations +91%, \$65M ROI, GenAI-powered claims decisioning deployed at insurance scale. Experienced with Docker, Kubernetes, and PCF cloud-native deployment. Actively building AWS proficiency to complement existing cloud-native background.

CORE COMPETENCIES

Full-Stack Product Engineering

Java / Spring Boot Backend

React / TypeScript Frontend

Docker & Kubernetes

Cloud-Native Deployment

GenAI Integration

REST API Design

Agile Delivery & Mentorship

WORK EXPERIENCE

Acko General Insurance

Jan 2025 - Present

Software Development Engineer 2 - AI-Enabled · Bengaluru

- RSA - Roadside Assistance Platform:** Full-stack ownership end-to-end - React + Angular SDUI frontend, Spring Boot BFF, Google Maps API integration, PII-masked phone handling (IRDAI-compliant), Growthbook feature-flag rollouts. Impact: app registrations +91% (18% → 34.5%), registration time -50%, weekly support calls -43%, CES ~90%. Built Advisor Portal for internal ops team.
- Admissibility AI Agent - GenAI Decisioning:** Architected a GenAI-enabled claims classification system with configurable rules engine, ML-based decisioning across 4 claim categories, and a contra-action feedback loop for continuous model improvement. Owned the full recommendation display layer and cross-team integration.
- PUD - Pickup & Drop (1,000+ Garages):** Owned config-driven SDUI frontend with dynamic slot-bias logic, free/paid pricing by pin code, real-time status polling. Built reusable navigation primitives adopted across RSA and PUD - reduced cross-team divergence and sprint overhead.
- CES Live Tracking & Claim Timeline:** Real-time tracking with Google Maps, Distance Matrix ETA, SLA tags (On Time / At Risk / Breached), and Segment observability instrumentation across all claim-handler workflows.
- Mentorship & Leadership:** Led API contract design across RSA/PUD teams; ran cross-team code reviews; mentored junior engineers. Resolved 30+ portal bugs in 3-4 days. Implemented auto-attendance tracking and analytics APIs.

Dell Technologies

Aug 2021 - Jan 2025

Software Engineer 2 (promoted from SDE1) - Security & DevOps Lead · Bengaluru

- Unified Cost Management Dashboard:** Java Spring Boot backend + Angular frontend with Layer-7 auth, Oracle DB, and PCF cloud-native production deployment. 50% approval-efficiency gain, \$65M ROI in FY. Raised DevOps coverage from 60% to 97%+.
- PRISMO & DISCP AI Chatbot:** Containerised with Docker and Kubernetes - 20% interaction efficiency gain. Speech Recognition Engine: 85% accuracy in production transcriptions with custom domain model.
- Eye On Desktop Widget (Electron JS):** Proactive monitoring tool - 35% reduction in issue-identification response time for Ops and Dev Engineering.
- Buddy Board:** Angular + Python + Spring Boot automated data-validation dashboard for DISCP - eliminated manual data-entry errors across procurement workflows.

Bharat Electronics Limited

Dec 2019 - Jan 2020

SDE Winter Intern · Ghaziabad

- Radar Console Displays for multi-object tracking - trajectory, distance, and bearing calculations using Qt IDE.

PROJECTS

RSA - Roadside Assistance Platform Production · Full-Stack

End-to-end product ownership: React + Angular SDUI, Spring Boot BFF, Google Maps API, dynamic slot booking with ADSC bias logic, PII masking (IRDAI-compliant), Segment + Growthbook instrumentation. +91% registrations, -50% registration time, -43% support calls.
React · Angular · Spring Boot · TypeScript · Google Maps API · Segment · Growthbook

Admissibility AI Agent - Claims Intelligence GenAI · Production

Production GenAI decisioning pipeline: configurable rules engine → ML classification (4 categories) → recommendation display → contra-action feedback loop. Deployed across 100k+ annual claims, reducing handler decisioning time and improving audit consistency.
Java · Spring Boot · React · TypeScript · ML Classification · LLM APIs

Acko Global Care - AI Medical Tourism Platform Ackathon 2024 · 4th Place

LLM-based medical report parsing → personalised hospital and specialist recommendations → treatment cost estimation → ranked doctor output. Full GenAI pipeline from raw input to ranked recommendations.
LLM APIs · Python · React · Prompt Engineering · Vector Search

Unified Cost Management Dashboard - Dell \$65M ROI

Java Spring Boot backend with Layer-7 auth, Angular DevExtreme frontend, Oracle DB, PCF cloud-native deployment. 50% approval-efficiency gain, \$65M ROI in FY. DevOps coverage 60%→97%+.
Java · Spring Boot · Angular · Oracle · PCF · Layer-7 Auth

EDUCATION

B.Tech - Computer Science Sikkim Manipal Institute of Technology 2017 - 2021
CGPA: 9.69 / 10

ACHIEVEMENTS

Patent Authorised - Dell Technologies · TIDE Hack2Evolve: Gen AI for Code Reusability & Sustainability 2023
1st Place - GSCM-TECH-A-THON, Dell · Parquet automation: 8 hrs → 2 min for large data files 2023
4th Place - Ackathon 2024, Acko · Acko Global Care - AI-powered medical tourism platform 2025

SKILLS

Backend: Java, Spring Boot, Python, Node.js, Scala (familiar) Frontend: React, Angular (3 yrs), TypeScript, JavaScript, CSS, Material UI
AI / GenAI: LLM APIs, ML Classification, Rasa NLP, Prompt Engineering, GenAI Integration Databases: SQL, Oracle, MongoDB, PostgreSQL
Infra: Docker, Kubernetes, PCF, AWS (learning), CI/CD, Git Architecture: Microservices, REST APIs, SDUI / BFF Pattern, Micro-frontends
Observability: Segment, Growthbook, Google Maps API, Feature Flags
